

Score Analysis

>10 - Very Healthy relationship with feedback, business alignment tools will help you and your company achieve desired outcomes

8-10 - Healthy relationship with feedback, business alignment tools will most likely help you and your company achieve desired outcomes.

4-7 - Poor relationship with feedback, before trying to implement business alignment tools, develop a plan for improving it before and during the alignment process. Utilizing a business coach is very helpful for improving relationship with feedback.

<4 - Very poor relationship with feedback. DO NOT START BUSINESS ALIGNMENT PROCESS until you and the people around you can see a tangible improvement in your relationship with feedback.
